The Solar Wastewater Treatment Plant harnesses solar energy to power a full water treatment system, making it ideal for off-grid or environmentally-conscious facilities.

Our line of solar transportable power units (TMSPDC®; Power AnyWhere Any Time®;) provides stand-alone photovoltaic power. These portable units ...

NIROBOX(TM) SW is a modular, high-output, membrane-based and efficient seawater desalination solution that offers pretreatment, reverse osmosis, ...

This article provides an overview of harnessing solar energy for wastewater treatment plants, highlighting its relevance and importance in the context of renewable energy.

After several years of research and testing we have achieved a compact solar water purification plant design in a container that can supply up to 1000 m³/day of drinking water.

This article provides an overview of harnessing solar energy for wastewater treatment plants, highlighting its relevance and importance ...

This review will serve as a guidebook for researchers and policy makers to identify and select suitable configuration of photovoltaic-water related technologies for implementation ...

Our line of solar transportable power units (TMSPDC®; Power AnyWhere Any Time®;) provides stand-alone photovoltaic power. These portable units supply AC power just about anywhere ...
