What is unattended UAV (Unmanned Aerial Vehicle)?

The concept for unattended UAV (Unmanned Aerial Vehicle) operations is simple but requires complex engineering. In the concept, a remote operator/computer commands the UAV to take-off automatically. The drone performs the required mission and transmits data for further processing en-route.

What is a UAV docking station?

UAV docking stations may include the facility to download flight logs and data from the drone's sensors and payloads. They may also include edge computing systems that can process this data, thus allowing operators to get results quickly in the field.

What changes were made to the Encata drone station?

Some minor modifications and DFM were made as part of the DVT (the initial engineering concept and design engineering practices of Encata concerned manufacturability and cost-efficiency of the manufacturing process) The drone station was thus ready for further batch production and TRL-8 technology.

Drone Ports & Landing Pads Automated Drone Stations Stabilized Landing Platforms Drone ports may be mobile or fixed in place, and may also be installed on naval vessels and moving vehicles. Stations that have to contend with a constantly moving platform may include a self-leveling landing pad that ensures that the drone will always land on a stable surface. Drone landing pads may utilize a variety of technologies to ensure that... See more on unmanned system technology vertis modular Mobile Drone Station Trailer | Vertisa Portable ... Used as the control center of armed or unarmed unmanned aerial vehicles, a mobile drone station trailer is a mobile unit that can be easily transported ...

We design and build patented, fully autonomous Unmanned Aerial Systems (UAS) with mobile, vehicle-mountable, and charging docking stations for individual or swarms of its Unmanned ...

Used as the control center of armed or unarmed unmanned aerial vehicles, a mobile drone station trailer is a mobile unit that can be easily transported anywhere and are ready for immediate use.
