With our solar container we focus on solar energy, a sustainable and at the same time the most logical energy source in Africa. We have developed two different containerized systems: our ...

Existing and soon-to-be electricity customers in West Africa countries Chad, Liberia, Sierra Leone and Togo are about to get some help from the new Regional Emergency ...

This infrastructure supports clean power for electric vehicles used in grocery delivery in Abuja and beyond. The rollout improves electricity access, reduces emissions, and ...

Disaster solar containers deliver clean, reliable emergency power in under 2 hours, offering rapid, fuel-free deployment for disaster relief.

When Lome's famous fish market upgraded to solar+storage, they chose modular containers that could withstand salt spray and 40°C heat. Now traders keep tuna colder than ...

Existing and soon-to-be electricity customers in West Africa countries Chad, Liberia, Sierra Leone and Togo are about to get some ...

It consists of solar panels that absorb sunlight during the day, storing it in batteries embedded in the container. This energy can then be harnessed to charge various gadgets and ...

With our solar container we focus on solar energy, a sustainable and at the same time the most logical energy source in Africa. We have developed ...

This article examines the role of solar containers in earthquake response, their deployment benefits, and field
