Envision Energy has partnered with renewable energy infrastructure firm Field to develop a 50MWh battery energy storage system (BESS) in Blackburn, England. Envision ...

Arizona public power utility Salt River Project and ESS, a leading manufacturer of iron flow long duration energy storage systems, on Oct. 9 announced an agreement to add ...

Salt River Project will partner with ESS to install a 50 MWh long-duration energy storage system in Pinal County as part of its capacity expansion plan to meet rising demand.

Energy storage developers are securing significant capital and strategic partnerships, with ESS Inc launching a 50MWh iron flow battery pilot, Energy Vault closing a ...

This project is the result of an RFP issued by SRP in 2024 for LDES pilots. SRP is working to at least double the number of generating resources on its power system in the next ...

The pilot project will be installed at SRP's Copper Crossing Energy and Research Center in Florence, Arizona and sell capacity to ...

The US Department of Energy (DOE) has provided US\$7.9 million for a 50MWh battery energy storage project using second life EV batteries in the ERCOT, Texas market, by ...

Energy storage developers are securing significant capital and strategic partnerships, with ESS Inc launching a 50MWh iron flow battery ...

The pilot project will be installed at SRP's Copper Crossing Energy and Research Center in Florence, Arizona and sell capacity to SRP under a ten-year energy storage ...
