Imagine a revolutionary vision of the maritime industry: autonomous, solar-powered container ships that blend cutting-edge ...

Dutch solar innovator Wattlab and German inland shipping giant HGK Shipping have teamed up to launch the world's first hybrid solar-powered inland vessel as part of an ...

Meanwhile, cargo ships and ferries are increasingly adopting hybrid systems, combining solar power with conventional engines. This approach has been shown to enhance ...

Dutch solar innovator Wattlab and German inland shipping giant HGK Shipping have teamed up to launch the world's first hybrid solar ...

Imagine a revolutionary vision of the maritime industry: autonomous, solar-powered container ships that blend cutting-edge engineering with environmental stewardship. ...

Battery-electric ships, wind-assisted propulsion, and solar-powered vessels are no longer prototypes or novelties. They are operational, investable, and increasingly essential to ...

In a groundbreaking shift towards sustainable maritime transport, the Blue Marlin debuts as the world's first inland vessel to harness solar power directly for propulsion, setting a ...

The Yuan Hai Kou, hailed as China's largest ocean-going solar- and liquefied natural gas (LNG)-powered cargo ship, has set sail on ...
