-----

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, ...

The outer surface of the container is equipped with foldable photovoltaic panels, which can be folded up when not in use to reduce volume and weight for easy transportation ...

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular ...

A combination of several container modules is able to flexibly expand the solar power generation capacity, combining with battery systems, energy storage systems, etc., for ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

While traditional stationary solar power systems are normally cumbersome to install and difficult to relocate, folding PV containers make ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight ...

The Mobil-Grid <sup>®</sup> is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic
