Containerized Battery Energy Storage Systems (BESS) are essentially large batteries housed within storage containers. These systems are designed to store energy from renewable ...

With talks of blockchain-enabled energy certificates and AI-driven subsidy allocation in 2026 policy drafts, Belgrade's storage sector shows no signs of slowing down.

Panelists agreed that new technologies, including thermal energy storage, can effectively enhance the stability of intermittent energy production from renewable sources.

There are exponential opportunities for energy storage investments to facilitate the green transition, main developers and ...

With exceptional energy density and compact dimensions, they support foldable structures and container roofs, offering outstanding performance in transportable and modular energy units.

Belgrade energy storage systems are revolutionizing how cities and industries manage electricity. With global renewable energy capacity expected to grow by 75% between 2023-2027 (IEA ...

Bosnia and Herzegovina is set to have its first battery energy storage systems installed in the transmission network, which will provide ...

Bosnia and Herzegovina is set to have its first battery energy storage systems installed in the transmission network, which will provide auxiliary services.

A sudden power outage hits Belgrade during peak tourism season. Hotels lose AC, traffic lights go haywire,

and ice cream shops face a meltdown (literally). Enter mobile energy ...

BELGRADE, Nov 4 (Reuters) - Serbia must invest 17 billion euros (\$19.6 billion) in renewable energy sources like hydro and solar over the next 20 years to replace ailing coal-fired plants ...

There are exponential opportunities for energy storage investments to facilitate the green transition, main developers and operators in Southeast Europe said at Belgrade Energy ...

This article explores applications, market trends, and how modern storage technologies like those from SunContainer Innovations address Serbia's growing energy demands.
