The Bulgarian solar energy sector is witnessing a remarkable transformation as the country's solar power capacity surges past expectations, with the biggest photovoltaic parks ...

In a matter of months, Bulgaria's total solar power capacity is set to exceed 3 GW, compared to just 1.3 GW at the end of 2021. The lineup in the list of the largest photovoltaic ...

In a matter of months, Bulgaria's total solar power capacity is set to exceed 3 GW, compared to just 1.3 GW at the end of 2021. The ...

The Bulgarian solar energy sector is witnessing a remarkable transformation as the country's solar power capacity surges past ...

Enerly Development GmbH ("Enerly") and OMV Petrom S.A. ("OMV Petrom") are pleased to announce the establishment of a 50-50% joint venture to build and operate the ...

Bulgaria's government outlines plans for renewable energy, yet lacks concrete strategies for rooftop solar installations despite the country's high solar potential.

Recent legislative changes in Bulgaria aim to facilitate the permitting process for solar power plants. The report provides a complete picture of the market situation, dynamics, current ...

In 2023, each of these Eastern European nations experienced substantial growth, collectively constituting more than 7% of the solar market. The future also looks promising, ...

Independent power producer (IPP) Enerly Development has formed a 50-50 joint venture (JV) with Romanian oil and gas producer OMV Petrom to build a 400MW solar PV ...

Solar power in Bulgaria was expanded by 100 megawatts (MW) in 2011. A 16.2 MW solar power plant in Zdravetz, Bulgaria was expected to be completed in June 2012, with power being sold ...

Independent power producer (IPP) Enery Development has formed a 50-50 joint venture (JV) with Romanian oil and gas producer ...

At the end of 2022, Bulgaria's cumulative installed solar PV capacity exceeded 1,700 MW (1.7 GW). Several large-scale solar photovoltaic (PV) projects with a power capacity above 50 MW ...
