The Williamsdale BESS is part of the ACT Government's Big Canberra Battery project and will play a critical role in supporting the ...

Explore the Williamsdale Battery Energy Storage System (BESS) project by Eku Energy, a 250MW/500MWh facility in Canberra. This project ...

It is expected to be operational in 2026 and will be able to store enough renewable energy to power one-third of Canberra for two hours during peak demand periods.

It is designed to help future-proof Canberra's energy supply and generate about 180 to 200 jobs. The complex - including the battery, substations and power lines - will be ...

The ACT Government has approved the development application for a grid-scale battery in Williamsdale, as part of efforts to future-proof Canberra's energy supply.

It is expected to be operational in 2026 and will be able to store enough renewable energy to power one-third of Canberra for two ...

The 250-megawatt (MW), 500 megawatt-hour (MWh) battery energy storage system (BESS) will store enough renewable energy to power one-third of ...

The Williamsdale BESS is part of the ACT Government's Big Canberra Battery project and will play a critical role in supporting the ACT's transition to renewable energy and ...

The 250-megawatt (MW), 500 megawatt-hour (MWh) battery energy storage system (BESS) will store enough renewable energy to power one-third of Canberra for two hours during peak ...

Scheduled to begin operations in 2026, the BESS will store enough renewable energy to power one-third of Canberra for two hours during peak demand, playing a pivotal ...

Construction will begin later this year. The Big Canberra Battery will be capable of delivering 250 MW of power - more than a third ...

The Big Canberra Battery project will provide renewable energy security across the electricity grid, help the ACT grow its renewable energy sector, provide more local ...
