
Atlas recently closed $510 million in financing for its Estepa project in Chile, a hybrid system with an installed solar capacity of 215 MW and two battery energy storage systems.

Discover how solar and storage projects by Zelestra are shaping Chile"s grid, enhancing reliability, and driving Chile"s energy transition.

Canadian Solar signed a contract with Colbún, one of Chile"s leading power generation companies, to supply a 228 MW/912 MWh battery energy storage system for the ...

The Glenfarne Group has acquired a portfolio of solar PV and co-located BESS assets in Chile from Metlen Energy & Metals.

The acquisition covers four operational solar PV projects with a combined capacity of 588 MW, along with associated BESS facilities totaling 1.61 GWh of storage capacity. The ...

Chile"s booming solar energy market in 2025, with policy support, industrial trends, and MOTOMA"s turnkey solar + storage solutio for mining, agriculture, and residential secto.

The near-$300 million project will feature a 960 MWh battery energy storage system (BESS) and 340 MW of solar generation capacity and will feed into Chile"s National ...

In the energy sector, the Company provides integrated solutions through the implementation of thermal and renewable power generation projects, electricity distribution ...

Partnering with Chilean solar developer Travesía Solar, Canadian Solar will supply an impressive 912 MWh energy storage system to be seamlessly integrated with the 600 MWp ...

With a target to achieve 100% renewable energy by 2050, the Chilean market has attracted a diverse array of international and local solar companies. This 2025 list ranks the top players ...
