-----

Spanning 600 hectares--an area comparable to 1,200 football fields--the vast project will include a 600 MWh energy storage system to ensure a stable power supply even ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

Recently, the country welcomed its largest solar park, capable of powering 35,000 households. Now another such step is the development of two battery energy storage systems in Harju ...

That's the promise of energy storage containers - the unsung heroes of modern renewable systems. In Tartu, Estonia, a hub for green innovation, these modular powerhouses are ...

Support measures will play a key role in accelerating adoption. The success of the Auvere pilot confirms that storage solutions should become a central pillar of Estonia's energy ...

Recently, the country welcomed its largest solar park, capable of powering 35,000 households. Now another such step is the development of two ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in ...

Sunly, in collaboration with Metsagrupp, is developing a 16 MW / 32 MWh battery energy storage system (BESS) next to the 45 MW Raba Solar Park in Pärnu County, Estonia.
