Do you finance solar & storage projects?

We finance both solar plus storage projects as well as standalone storage projects. We know the asset class and can provide value with long-term, project-level debt. Our solar lending team members are experts in utility-scale and C&I solar, community solar and energy storage project financing nationwide.

Can a PPA be used to finance a solar installation?

The National Renewable Energy Laboratory (NREL) has drafted example contracts for a variety of PPA arrangements for use in creating or vetting new PPA programs. DOE has a draft RFP for use in requesting applications to create either a PPA or a lease for financing a solar installation. Select each financing option to dive deeper and learn more.

What are the benefits of combining solar containers with smart grid systems?

Integration with smart grid systems and energy storage solutions: Explore the benefits of combining solar containers with smart grid technologies and advanced energy storage solutions for enhanced efficiency and control. Solar energy containers offer a reliable and sustainable energy solution with numerous advantages.

Can I create a PPA or lease for a solar installation?

DOE has a draft RFP for use in requesting applications to create either a PPA or a lease for financing a solar installation. Select each financing option to dive deeper and learn more. OTHER FINANCING OPTIONS
