Launched in 2021 under the leadership of the EDF Group, the EVVE (Environmental Valorization of Virtual Energy storage) project aims to deploy 800 vehicle-to ...

The technology enables charging the batteries of electric vehicles and transferring the stored energy back to the stationary storage system in the building or to the grid when ...

Instead of just consuming electricity, electric vehicles can actively contribute to grid stability through bidirectional charging. They store surplus energy - from renewable sources, for ...

With a large capacity of 2 MWh, this vehicle offers ample storage to meet the demands of various industries. Equipped with six new energy vehicle charging guns, it allows ...

Marcus Fendt explains how the vehicle-to-grid (V2G) rollout was successfully implemented in France in 2024, in which electric cars serve as mobile storage units and feed ...

In this article, we explore the rapid growth of the EV market, the current state of the charging landscape, and how Sigenergy is at the forefront of revolutionizing energy storage ...

VERSO enables bidirectional charging to help generate even further savings for users. All versions feature automatic updates and ...

In contrast to stationary storage and generation, which must stay at a selected site, bidirectional EVs employed as mobile storage can be mobilized to a site prior to planned ...

Launched in 2021 under the leadership of the EDF Group, the EVVE (Environmental Valorization of Virtual

Energy storage) project aims ...

Given the right energy management solutions, bidirectional charging, or V2X, could add significant storage capacity for these systems. In addition, pairing a V2X system with ...

RYC New-Generation Mobile Energy Storage & Charging Vehicle is a mobile charging vehicle with battery energy storage. It can be flexibly configured to use low-peak electricity at night to ...

VERSO enables bidirectional charging to help generate even further savings for users. All versions feature automatic updates and remote diagnostics, compatible with type 2 ...
