How much does a hydropower project cost in Gabon?

The project will cost nearly \$12.7 million. Construction of several hydropower projects is planned but there have been several years of delays and search for funding. World Bank studies indicated that Gabon's nine provinces would require an installed capacity of at least 1,250 mw by 2040.

Who funds Gabon Power Company?

GPC's projects are primarily carried out under build-own-operate-transfer schemes and have received funding from major international institutions including the IFC, the African Development Bank, the Development Bank of Southern Africa and the Emerging Africa Infrastructure Fund. Gabon Power Company News and Features

Will Owendo gas power plant increase Gabon's electricity generation by 50%?

The Owendo gas power plant project, which will commence construction in June, is expected to play a vital role in Gabon's goal of increasing its electricity generation by 50% by 2025.

How will Gabon expand its power generation capacity?

The demand for advanced technology, skilled labor and power generation services will continue to rise as Gabon expands its electricity generation capacity, presenting significant opportunities for companies in gas extraction, power generation and transmission.

Once completed, the plant will have a capacity of 130,000 m³/day and will have a significant impact on the improvement of access to drinking water in Gabon. The project will create 500 ...
