For the latest updates and more information, visit our website: <https://www.kalelabellium.eu>

An additional 1,000 MW of new battery energy storage is expected to be procured in the coming years through competitive bidding processes and a 13 MW demonstration ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions ...

If Georgia's energy storage sector were a peach cobbler, it'd be bubbling with innovation instead of fruit. The state has quietly become a hotspot for energy storage ...

An additional 1,000 MW of new battery energy storage is expected to be procured in the coming years through competitive bidding ...

The project utilizes the GEMS Digital Energy Platform, Wärtsilä"s energy management system, to manage the facility and provide secure operations, and is built with ...

Georgia Power recently announced that construction is underway for four new battery energy storage systems in strategic counties across the state to support energy ...

Georgia Power is also seeking bids for an additional 500 MW of Energy Storage Systems (ESS) with a storage discharge duration of a minimum of two-hours.

Georgia Power recently announced that construction is underway for four new battery energy storage systems in strategic ...

The project utilizes the GEMS Digital Energy Platform, Wärtsilä"s energy management system,
