---

Norwegian state-owned utility Statkraft AS has commissioned the Zerbst solar-plus-storage project in Saxony-Anhalt, Germany, which combines 46.4 MW of power-generating capacity ...

To learn German, try watching German films with subtitles on, which can help you learn basic vocabulary words and pronunciation. You can also read German children's books ...

Learn German online and for free! Language courses, exercises, german grammar, media library and practical information.

From market outlook to anticipated growth in the PV market and the evolving role of battery systems, this study outlines both present state and future prospects.

Facts about the German language, learning tips, free language courses and important links for people learning or teaching German.

Located on a 41-hectare former gravel pit near Zerbst/Anhalt in Saxony-Anhalt, the EUR45 million facility combines a 46.4 MW solar farm with a 16 MW / 57 MWh lithium-ion battery ...

The German Federal Network Agency (Bundesnetzagentur) has awarded 587MW of solar-plus-storage in its latest Innovation Tender.

Whether you are a beginner or highly proficient, this is where you will find German courses. You can also learn German with the news or music - from level A1 to C1.

The plant will be the largest hybrid project in Germany, with enough capacity to save around 32,000 tonnes of CO2 emissions annually, according to Statkraft's calculations.

Statkraft, thought to be Europe's largest producer of renewable energy, has commissioned Germany's largest solar battery storage hybrid power plant under the country's ...

From market outlook to anticipated growth in the PV market and the evolving role of battery systems, this study outlines both present state and future ...

The plant has been feeding energy into the grid since October 2025. The renewable hybrid power plant in Zerbst is the first of its kind for Statkraft - developed in-house ...
