Solar Direct offers the most flexible off-grid and hybrid Solar PV systems on the Guyana market to meet the budget and needs of our clients. No job is too small or too big for us as we cater for ...

We can develop specific solutions that cover both systems with our Hybrid Solar Systems, and allow you to benefit from either the "on-grid" or "off grid" infrastructure available in your area.

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. Technological advancements are dramatically improving ...

Guyana Power and Light Inc. (GPL) is preparing plans for three utility-scale solar PV farms totaling 30 MWfor the national grid in the long term,as well as a 0.75 MW Solar PV Farm at ...

Guyana will shortly complete the installation of its first solar PV farm in Mabaruma, Region 1 with an installed capacity of 400 kW and within the next 2 years, a series of solar PV Farms, ...

These solar-powered solutions are not just "alternative energy" - they're becoming the primary choice for remote villages, mining operations, and eco-tourism facilities across Guyana's ...

Implementing the SHE program would realise economic and environmental benefits while simultaneously supporting the objectives of Guyana's LCDS 2030. Guyana Energy Agency ...

Guyana's Public Utility (GPL) has initiated a tender for three utility-scale solar PV and battery storage projects, totaling 15 MWp of solar capacity and 22 MWh of storage.

Our advanced inverters convert solar energy into usable electricity with seamless efficiency. Choose from

grid-tied, hybrid, or off-grid models to match your energy needs.

We can develop specific solutions that cover both systems with our Hybrid Solar Systems, and allow you to benefit from either the "on-grid" or "off ...

Implementing the SHE program would realise economic and environmental benefits while simultaneously supporting the objectives of Guyana's ...
