-----  
Are Home Depot GFCI circuit breakers UL certified?

To verify or get additional information, please contact The Home Depot customer service. Siemens GFCI circuit breakers are UL Listed and cUL Certified to provide Class A GFCI protection. Current imbalances of 4-6 mA or more between load conductors will cause the ground fault sensor to trip the circuit breaker.

Which GFCI circuit breaker is best?

Ideal for homeowners looking for enhanced safety, the Siemens 35 Amp GFCI Circuit Breaker offers self-testing and lockout features, ensuring reliable ground fault protection for peace of mind. The Siemens QPFB GFCI Circuit Breaker features a polished gilt finish, single circuit and a medium base, aluminum shell lamp holder.

What is a Siemens qpfb GFCI circuit breaker?

The Siemens QPFB GFCI Circuit Breaker features a polished gilt finish, single circuit and a medium base, aluminum shell lamp holder. It is designed for use with incandescent bulbs and is perfect for your

What causes a GFCI to trip a circuit breaker?

Current imbalances of 4-6 mA or more between load conductors will cause the ground fault sensor to trip the circuit breaker. These circuit breakers offer Self-Test and Lockout features as required by UL 943, enabling the GFCI to automatically and continuously test itself to ensure that it is working properly.

Homeline miniature circuit breakers are engineered and designed for fast installation and superior circuit protection. Homeline circuit breakers are designed to plug into Homeline load centers to ...
