How many generators does Majuro have?

The Majuro diesel power station 1, commissioned in 1984, has a total of five diesel generators installed. This includes four original Peilstik generators and a single Caterpillar generator added in 1992.

Why does Majuro need a new power system?

In order to stabilize power service, the Marshalls Energy Co. was forced to import more than half-a-dozen rental containerized generators last year that currently provide the backbone of Majuro's power. International donors and the Marshall Islands government have lined up to fund a huge overhaul of the power system for Majuro.

How long does it take to build Marshalls power plant?

Demolition and clearing of the first power plant which opened in 1982, is nearly completed with construction of the new facility expected to start later in May. The new plant building is expected to take about seven months to construct, Jack Chong-Gum, CEO of the Marshalls Energy Co., said.

Does MEC sell LPG gas in the Marshall Islands?

MEC is the distributor of LPG gas throughout the Marshall Islands. Apart from generating electricity from diesel and solar installations, MEC has a 33,000 pound bulk storage capacity for LPG gas, which is decanted into smaller bottles.
