What is a tunnel shipping container?

Tunnel containers provide two access points, they have two sets of standard double-doors (one at each end of the container) making it easy to access both ends of the shipping container. Tunnel Shipping Containers are typically purchased by clients who want improved access to the contents of their container.

Are tunnel shipping containers available for resale?

Tunnel shipping containers are typically only available in new 'one trip' condition, owners typically create them for a specific purpose so they hold onto them. There aren't many tunnel containers available for resale in used condition.

Why should you invest in a bulk collapsible container?

Eliminate redundant packaging and streamline your operations with a single product designed for both storage and shipping. Investing in our advanced bulk collapsible containers significantly reduces your total shipping costs by removing the need for additional, specialized infrastructure.

What is a collapsible container?

Collapsible containers are a type of storage unit that can be folded down when not in use. This feature allows for space-saving and efficient transportation. They are often made of durable materials like plastic or metal and come in various sizes. Why should I use collapsible containers? Collapsible containers are versatile and offer many benefits.
