-----  
How much does it cost to add a solar battery?

Adding a solar battery to an existing solar panel system typically doesn't cost much more than including it during a new installation. However, there may be additional retrofitting costs, such as resolving compatibility issues or upgrading your inverter to a battery-ready model.

How much does solar battery maintenance cost?

The cost to hire a local solar company to inspect and maintain your battery system is anywhere between \$150 and \$300 on average. Solar batteries last longer when you maintain them regularly. Maintenance includes an inspection, rotating the batteries, and cleaning the terminals.

How much does a solar battery cost in 2025?

The average cost to install a solar battery in 2025 ranges from \$9,000 to \$19,000, with most homeowners spending about \$13,000. The total price depends mainly on the type and capacity of the battery, as well as the complexity of your system.

How much does it cost to rewire a solar battery system?

If you're installing a solar battery system away from electrical wiring and outlets, then you may end up paying \$6 to \$10 per square foot to hire a local electrician to rewire your house. Generally, simple rewiring projects cost around \$1,500.
