-----  
Why do we need a backup battery cabinet?

Through cutting-edge research and innovation, advanced engineered power products for backup battery cabinets have become essential to our energy future. When the power goes out, battery backups ensure that the Internet, cloud-based data, financial and health records stay accessible.

What types of batteries can custom power provide?

Custom Power provides custom battery design for: Li-ion LiFePO4 LiPo NiMH NiCd Primary lithium batteries BMS circuitry integration Chemistry options Lithium-Ion Lithium-Polymer Lithium Iron Phosphate Lithium Primary Nickel Cadmium Nickel Metal Hydride Custom Battery Pack Design & Engineering

What is a C&C power battery enclosure?

C&C Power Battery enclosures are configured to meet the need of all types of applications. Battery cabinets are engineered for an uninterrupted power backup source to support the continuous operation of your critical facility.

What does custom power do?

We provide battery pack assemblies in all chemistries, optimizing performance and meeting the requirements of clients who need battery solutions for emergency systems, military equipment, aerospace systems, and other applications. Our clients rely on Custom Power to provide them with the competitive edge they need.

Standard sizes are available in 32 and 40 battery configurations to fit multiple battery sizes from a wide range of manufacturers including NorthStar Battery, East Penn (Deka), EnerSys and ...

We design and manufacturer each battery enclosure to meet the precise needs and requirements of YOUR project. Every Battery Enclosure is manufactured to spec, meeting size and weight ...

Standard sizes are available in 32 and 40 battery configurations to fit multiple battery sizes from a wide range of manufacturers including NorthStar ...
