We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

Hybrid inverters are the heart of any modern solar-plus-storage system. Whether you're living off the grid or preparing for emergencies in a grid-tied home, they provide ...

There are many ways to skin a cat, and even more ways to add solar power to a shipping container. To be fair, I cheated a bit. Well, not really cheated, but I just went with a ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV ...

Join us as we take a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container! Hi there, ...

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...

If you're looking for the simplest and easiest way to build a reliable, high quality off-grid solar system that can power a container or tiny house, you've come to the right place. This is a...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

If you're looking for the simplest and easiest way to build a reliable, high quality off-grid solar system that
