When will Italy's new energy storage capacity procurement auctions take place?

Terna's thinking ...The date is set. The first of Italy's new energy storage capacity procurement auctions (MACSE) will take place on September 30,2025,Terna's president for grid development strategies,Francesco Del Pizzo,has confirmed.

Why should we invest in Italy's digitised energy infrastructures?

The company's commitment translates into both proprietary solutions and adaptation - already today - to the most stringent EU requirements for digitised energy infrastructures. The Italian storage market also represents a key test bed for large-scale integration of renewables and smart grid management.

Why is Italy a key test bed for smart grid management?

The Italian storage market also represents a key test bed for large-scale integration of renewables and smart grid management. "Italy has all the credentials to become a pioneer in Southern Europe,with growing renewable generation capacity,qualified operators and rapidly adapting regulation," concludes Nebreda.

How much money will be invested in accumulation technologies in Italy?

"The expectation is that by 2030 almost 20 billion euros will be invested in accumulation technologies in Italy,and we want to play a leading role in this transformation," says Julian Nebreda,CEO of Fluence-multinational active in 50 countries,15 of which in Europe.
