---

As global demand for renewable energy surges, Kyiv has emerged as a hub for innovative liquid cooling energy storage systems. These solutions tackle one of the biggest challenges in ...

For years, air cooling was the standard, but as energy storage capacity expands, it is proving inadequate. Liquid cooling is now emerging as the preferred solution, offering better ...

Explore the evolution from air to liquid cooling in industrial and commercial energy storage. Discover the efficiency, safety, and ...

The Ukrainian capital Kyiv came under a massive Russian attack early on Saturday, with explosions sounding in the city, air defences in operation and the Ukrainian ...

This advanced liquid cooling solution uses a mixture of high-purity glycol, corrosion inhibitors, antioxidants, and demineralized water to provide superior heat dissipation, ...

Discover how liquid-cooled energy storage systems enhance performance, extend battery life, and support renewable energy integration.

KYIV, Ukraine (AP) -- Russia attacked Ukraine's capital with ballistic missiles and drones on Saturday, killing at least one person and wounding 27, a day before talks between ...

As a global leader in energy storage solutions, TAICO will be exhibiting at the 17th International Trade Fair EcoEnergy Expo (15 Brovarsky Ave.), held at the Kyiv International ...

Tourist and cultural hub about Kyiv, where everything about tourist locations, culture, events and curiosities is

collected. You can also visit Kyiv virtually - virtual tours, online exhibitions in the ...

Discover GSL Energy's advanced liquid cooling energy storage systems for commercial and industrial applications. Scalable to 5MWh, certified by UL, CE,CEI and IEC. Improve energy ...

Explore the evolution from air to liquid cooling in industrial and commercial energy storage. Discover the efficiency, safety, and performance benefits driving this technological shift.

"A city's energy resilience starts with smart storage," says Dr. Oleksiy Petrov, lead researcher at the Kyiv Energy Institute. "Our 2023 study shows storage systems can reduce grid instability ...
