-----

The government has received 16 offers for the development of Malta's first large-scale utility battery energy storage systems, Minister for the Environment, Energy and Public ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

This pioneering project, the first of its kind in Malta, will not only provide essential electricity storage but also play a crucial role in responding swiftly to balance the grid during ...

Malta's grid-scale, long-duration energy storage system helps governments, utilities, and grid operators transition to low-cost, carbon ...

This pioneering project, the first of its kind in Malta, will not only provide essential electricity storage but also play a crucial role in ...

Located in the Dedza district of Malawi near the town of Golomoti, the 20MWac solar PV and 5MW/10MWh energy storage project is set to become a leading project in sub-Saharan Africa ...

InterConnect Malta has announced the launch of tenders for the design and construction of two large-scale Battery Energy Storage Systems (BESS).

We issued a call for offers for around 40 megawatts of battery energy storage systems, which are mass storage, and there was a lot of ...

With Malta's first commercial plant going online in Q2 2025, early adopters like E.ON and NextEra Energy
