The 2024 Energy Storage Order established a statewide goal of deploying 3,000 MW of new bulk energy storage by 2030 and required that NYSEDA submit a draft ...

The new keyword in JavaScript can be quite confusing when it is first encountered, as people tend to think that JavaScript is not an object-oriented programming language. What is it? What ...

From iron-air batteries to molten salt storage, a new wave of energy storage solutions is set to unlock resilience for tomorrow's grid.

Energy storage is essential for creating a cleaner, more efficient, and resilient electric grid, which can ultimately reduce energy costs for New Yorkers. As New York State transitions to ...

We need additional capacity to store the energy generated from wind and solar power for periods when there is less wind and sun. Batteries are at the core of the recent ...

A new expression is the whole phrase that begins with new. So what do you call just the "new"; part of it? If it's wrong to call that the new operator, then we should not call ...
