The Henrietta project is a cornerstone of the nation's energy transition, combining a 60 MWp solar photovoltaic (PV) array with a substantial 240 MWh battery energy storage ...

Mauritius is set to benefit from Qair's new hybrid solar and storage project, a significant development that will enhance the nation's energy security and accelerate its shift ...

With the advent of the BESS, indicated the Minister, a greater capacity of green energy will be stored and integrated into the national ...

French renewable energy producer Qair has secured a loan agreement to finance the construction of 60 MW of hybrid solar and storage projects in Mauritius.

The Government of Mauritius has inaugurated a 20 MW grid-scale battery energy storage system (BESS) at the Amaury Sub-station, marking a significant stride towards its ambitious goal of ...

Mauritius isn't just stacking batteries like Lego bricks. Their new energy storage base combines three cutting-edge solutions: Remember those old Nissan Leaf batteries? ...

The Government of Mauritius has inaugurated a 20 MW grid-scale battery energy storage system (BESS) at the Amaury Sub-station, marking a significant stride towards its ...

Qair announces the closing of a new loan to support the implementation of a hybrid solar and battery storage project in Mauritius.

In an exciting development for renewable energy in Africa, Qair, an Independent Power Producer (IPP), has
