As Nordic nations aim to enhance renewable sources, energy storage batteries become crucial in ensuring a stable power supply. Given the region's commitment to ...

Fourteen large battery storage systems (BESS) have come online in Sweden, deploying 211 MW/211 MWh for the region. Developer and optimiser Ingrid Cap...

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in ...

As the Nordic countries push forward with rapid electrification and record-breaking renewable energy development, a new structural necessity is emerging in the energy system: ...

Unlike traditional grid-following power electronics solutions, the grid-forming Battery Energy Storage System (BESS) delivered by Merus Power can independently ...

With rich renewable resources and advanced storage technologies, the Nordics are positioned to become Europe's "green battery," supplying clean energy across the ...

The Elektra Energy Storage Project, Sweden's largest battery storage project, is now fully operational. Located in Landskrona, southern Sweden, the project will provide ancillary ...

Nordic Batteries designs and manufactures high-power and high-energy battery modules, BMS and BESS products. The company ...

From advanced storage solutions to nuclear innovation, learn how technological breakthroughs are paving the

way for a more flexible, efficient and sustainable energy future.

“Think of supercapacitors as the sprinters of energy storage,” says Dr. Lena Fjellström, project lead at Nordic Energy Research. “They’re not here to replace marathon ...

Nordic Batteries designs and manufactures high-power and high-energy battery modules, BMS and BESS products. The company bridges the gap between battery cell ...
