The Baicells Nova452 is a high-power, dual-carrier LTE TDD base station designed for demanding outdoor deployments. It supports both Carrier Aggregation (CA) and Dual Carrier ...

This is an advanced two-carrier, outdoor LTE base station utilizing Bands 40/41/42 and 4x40W of power to provide excellent Non-Line-of-Sight high speed broadband coverage.

This advanced 4x1W eNB delivers carrier aggregation (CA) across contiguous and non-contiguous channels, as defined by 3GPP. Each carrier can handle up to 20 MHz bandwidth; ...

The Baicells Nova452 is a high-power, dual-carrier LTE TDD base station designed for demanding outdoor deployments. It supports both Carrier ...

The Baicells Nova-436Q is an advanced two-carrier outdoor eNodeB (eNB) that is compliant with 3GPP LTE TDD technology. This 4x1W eNB is capable of operating in Carrier Aggregation ...

High-performance 3.5GHz Nova 436Q base station offers seamless ...

Base stations leverage existing multi-carrier designs, while UEs need enhanced RF frontends for wide bandwidths. Aggregates non-adjacent carriers within the same band. Requires multiple ...

High-performance 3.5GHz Nova 436Q base station offers seamless connectivity, robust coverage, and easy deployment for efficient network solutions. The Baicells Nova-436Q is an advanced ...

PRODUCT FEATURES LTE and LTE-Advanced Base Station 3gpp Release 10/12 Supports FWA, high mobility, rural, urban and semi-rural. Supported Bands: B40/41/42/43
