The batteries will allow Galp to store the solar energy produced in periods of high generation, and to deploy it during periods of high demand, maximizing the energy's value.

Chinese power battery maker CALB (HKG: 3931) has began construction of its battery plant in Portugal, its first overseas factory, as it begins its efforts to add capacity overseas.

The project to build a lithium battery factory for cars owned by the Chinese company CALB in Sines, with 15 GWh (Gigawatts/hour) of ...

Portugal and Spain are racing to build energy storage sites - and they're doing it with the urgency of someone who just discovered their phone battery is at 1%. Portugal isn't ...

Project execution will be led by Omexom Portugal--responsible for design, supply and Balance of Plant (BoP) construction--and Saft, which will manufacture and supply the ...

Alcoutim solar plant will be able to store energy in periods of excess production to sell it to the grid when it is most needed, maximizing its value. The battery system, in sunny ...

CHISAGE ESS provides a scalable energy storage solution that directly enhances the factory's energy independence. A single 60kWh system can supply several hours of uninterrupted ...

On the standalone side, the Casal da Corti#a facility in Leiria, developed by Infracore Energy Storage is Portugal's first fully merchant large-scale battery using lithium technology with a ...

Galp has kicked off construction on five new battery energy storage system (BESS) projects in Spain and
