Should you buy a portable power station?

Whether using a portable power station at home, camping, or on the jobsite as a power tool recharging station, it's vital to invest in a product that will withstand any method of transportation and any possible impact damage that could occur.

Are portable power stations a good investment?

If you buy through our links, we may earn a commission. Whether you live in an area prone to power outages or want to take a way to power up with you on the road or camping, a portable power station can be an excellent investment, especially in the dark and cold winter months.

Are portable power stations expensive?

Updated December 2025: We've added power stations from Bluetti, Anker, Jackery, and DJI, and an honorable mention for an Ampac power station. Portable power stations can be very expensive, but discounts, sales, and deals are common. If you can afford to wait, you can likely get your chosen power station for less than the listed MSRP.

What can a portable power station charge?

All portable power stations can charge up small gadgets like phones and laptops or be used to power lighting. Most can handle small appliances like mini-fridges or TVs. If you want to use power tools, an AC unit, or, in the UK, a kettle, you need to be able to draw thousands of watts.
