How much battery storage does SDG&E have?

SDG&E's utility-owned battery storage portfolio is expected to reach nearly 480 MW of power capacity and over 1.9 GWh of energy storage by year-end, including the Westside Canal expansion and two additional projects in San Diego County currently being constructed.

Why is battery storage important to SDG&E?

Battery storage is also part of SDG&E's aim to improve energy affordability by securing federal tax credits that can help reduce electric infrastructure costs.

Is SDG&E a good company?

SDG&E is a recognized leader in its industry and community, as demonstrated by being named Corporate Partner of the Year at the San Diego Business Journal's Nonprofit & Corporate Citizenship Awards and receiving PA Consulting's ReliabilityOne Award for Outstanding Reliability Performance for 18 consecutive years.
