What certifications do uninterruptible power supplies (UPS) suppliers have?

Other common quality certifications for Uninterruptible Power Supplies (UPS) suppliers are ISO 9001, ISO 9001:2000, ISO 9000, and ISO 14001:2004. A bar graph illustrating the quality certification statistics of Uninterruptible Power Supplies (UPS) suppliers in the USA on Thomasnet.com.

What is an uninterruptible power supply?

Uninterruptible power supplies are used to protect computers, telecommunication equipment, and any other electrical equipment that could cause injuries, fatalities, or serious business disruption and data loss if unexpected power disruption occurs.

What are the different types of uninterruptible power supplies?

Three main types of uninterruptible power supplies are currently used: offline, line interactive, and on-line systems. Offline UPS systems are standby systems that provide battery power to equipment when the main power supply falls underneath a certain limit. These are mostly used in home and office applications due to their lower cost.
