---

Slovenia targets 400 MW in BESS, 100 MW in electrolyzers and more pumped storage in the updated Integrated National Energy and ...

Slovenia has set aside EUR16 million (\$16.7 million) to support solar energy communities, requiring projects to include at least 100 kW of PV capacity, with or without ...

Jinko ESS, a global leading energy storage company and a subsidiary of Jinko Solar Co., Ltd. has further expanded its European presence with the signing of a 15MWh utility ...

That's exactly what Ljubljana's energy storage power initiative is achieving. Nestled in Slovenia's capital, this project combines cutting-edge battery tech with smart grid ...

Expected to be operational by the end of 2025, these plants will contribute significantly to Slovenia's goal of achieving climate neutrality by 2050 and are part of a larger ...

Last Updated on December 17, 2025 by Author Jinko ESS, a global leading energy storage company and a subsidiary of Jinko Solar Co., Ltd. has further expanded its European ...

By harnessing the power of solar and wind energy, Slovenia is not only reducing its carbon footprint but also enhancing energy security. Investments in battery storage systems and ...

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the ...

Slovenia has set aside EUR16 million (\$16.7 million) to support solar energy communities, requiring projects to include at least 100 kW of ...

Slovenia targets 400 MW in BESS, 100 MW in electrolyzers and more pumped storage in the updated Integrated National Energy and Climate Plan.

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage ...

Slovenia received 11.9 million euros in EU funding to support renewable energy projects, including photovoltaic systems and local energy communities, to boost electricity ...
