Customers requiring shorter overall delivery times and minimal on-site work have been the main drivers for Hitachi Energy's development of pre-fabricated indoor substations.

The HJ-SG-R01 is designed to integrate multiple green energy sources such as solar, wind power, and diesel generators. This makes it ideal for ...

View our prefabricated container substation product, which allows for mobility and rapid deployment. Join META Power Solutions online to learn more ...

All traction power and switching equipment in one containerMedium-voltage switchgearRectifier transformer unitDC switchgearSetup, connect, switch on - readyDigital components, connectivity and digital solutionsStation controlTechnical features station control system Sitras SCSEnergy management systemBenefitsAsset MonitoringCloud ConnectivityThe three-phase AC supply is fed in and distributed via the medium-voltage switchgear. The rectifier transformer unit (rectifier transformer and rectifier Sitras REC) transforms the voltage and frequency of the power supply. DC switchgear Sitras DSG or Sitras CSG distributes the power to the track sections. The Sitras SCS station control system pe...See more on [assets.new.siemens](https://www.siemens.com/press/en/2016/09/09160901) Hitachi EnergyContainerized and prefabricated substations | Hitachi EnergyCustomers requiring shorter overall delivery times and minimal on-site work have been the main drivers for Hitachi Energy's development of pre-fabricated indoor substations.

Our fully integrated electrical substations can be made quickly. Many of Brunstock's substation solutions can be ready to depart the factory in as little as six weeks.

In contrast to conventional substations, the local assembly and construction works for container substations are reduced to a minimum. They are supplied completely prefabricated and only ...
