Why is India exporting solar modules to the US?

India's solar module exports to the US are booming, driven by US restrictions on Chinese imports. Indian modules are cheaper, making them attractive. However, new US tariffs and investigations are creating concerns. India is also expanding its own solar production capacity to meet growing global and domestic demand.

How many exclusions are there for solar manufacturing equipment?

Exclusions for solar manufacturing equipment, reduced to 14 from the 19 initially proposed: USTR's May Notice proposed 19 exclusions covering solar manufacturing equipment: five for equipment to manufacture solar modules; six for solar cells; and eight for solar wafers.

Will China impose a tariff quota on solar cells & modules?

Since 2018, "safeguard" measures on Chinese-produced solar cells and modules have been in place and have been extended through 2026. The 2018 Presidential Proclamation implementing the recommendations of the USITC imposed a tariff-rate quota (TRQ) of 2.5 gigawatts (GW), allowing for up to that amount to be imported, above which tariffs are imposed.

Are bifacial solar panels excluded from tariffs?

As a result of the public input received, USTR announced certain products would be excluded from tariffs in September 2018, 25 and excluded further products in June 2019, including bifacial solar panels that absorb light and generate electricity on both sides of the panel (bifacial modules). 26

In terms of tariff rates alone, Turkey, Indonesia, and India seem to have the most favorable conditions for exporting cells and modules to the U.S., offering a cost-performance ...

Learn when you need an Export License and from whom in order to ship your products from the United States. The Consolidated Screening List (CSL) discloses persons or entities have been ...

Our Bureau New Delhi Solar power tariffs continue to decline as technology advances and mass adoption increases across the globe. According to a report by PL Capital, ...

Learn when you need an Export License and from whom in order to ship your products from the United States. The Consolidated Screening List (CSL) ...

Navigating through the intricate web of regulations can be daunting, yet it is fundamentally crucial for ensuring the safety, efficiency, and legality of solar panel exports.

Such duty shall be imposed on the declared value of such modules, including the cost or value of the non-cell portions thereof (such ...

Let's cut through the jargon first - when we talk about solar photovoltaic panel exports, we're essentially discussing how these sunlight-catching rectangles travel from factories to foreign ...

Detailed explanation of the core rules for the export of photovoltaic modules, including HS classification (assembled modules under 8541430000), declaration elements, ...

In June 2024, the U.S. International Trade Commission found that imports of c-Si cells and modules from Vietnam, Malaysia, Thailand, and Cambodia ...

Navigating through the intricate web of regulations can be daunting, yet it is fundamentally crucial for ensuring the safety, efficiency, ...

While the Biden Administration recently announced a suite of actions to address these concerns, the use of trade restrictions to respond to Chinese oversupply, particularly in ...

While the Biden Administration recently announced a suite of actions to address these concerns, the use of trade restrictions to ...
