Do I need a power adapter in Portugal?

If your devices are compatible with these specifications, you will not need a power adapter. However, if your devices use a different plug type or are not compatible with the voltage in Portugal, you will need a power adapter and/or a voltage converter/transformer. The standard voltage in Portugal is 230 V, and the standard frequency is 50 Hz.

What types of electrical outlets are in Portugal?

The electrical outlets in Portugal are the same as those in neighboring Spain: Type C and Type F. They both have two round holes, but Type F also has two grounding clips, while Type C is ungrounded. In Lisbon and throughout Portugal, Type F tends to be the more common outlet type.

Do you need a 230V power converter in Portugal?

Electric razors, blow dryers, and curling irons are most often rated to 110V-120V if they're made in the U.S. - and if you plug them straight into a 230V Portuguese outlet, it could shock you or start a fire. If you want to use one of these items during your trip, you'll need a US-to-Portugal voltage converter in addition to your power adapter.

What is the standard voltage in Portugal?

The standard voltage in Portugal is 230 V, and the standard frequency is 50 Hz. If you're coming from a country that uses a different voltage, you may need a voltage converter or transformer in addition to a plug adapter. What is my country's voltage and frequency? - Select it from our list.
