A contract has been awarded to SgurrEnergy to build Sri Lanka's first MW solar PV project, which will include a 12 MWh battery energy storage system (BESS).

Sri Lanka's state-owned utility, the Ceylon Electricity Board (CEB), has issued a Request for Proposals (RFP) for the development of 160 MW/640 MWh of standalone battery ...

a teardrop-shaped island in the Indian Ocean is quietly becoming a global energy storage testbed. Sri Lanka, better known for its cinnamon and scenic railways, now faces an ...

Recognizing the vital role of energy storage in the renewable energy landscape, ISL has formed a strategic partnership to become the exclusive authorized seller of Solar East ...

We are Volpack Energy, a Sri Lanka-based company driving the future of sustainable energy storage. Our team of innovators designs advanced supercapacitors that charge faster and ...

This report delves into the transformative phase of Sri Lanka's energy sector, highlighting the growing adoption of renewable energy sources like solar and wind power.

A contract has been awarded to SgurrEnergy to build Sri Lanka's first MW solar PV project, which will include a 12 MWh battery ...

With national goals to meet 70% of electricity demand through renewable energy by 2030 and achieve carbon neutrality in power ...

Issuing a statement, the CEB said this groundbreaking 600 MW project will store excess renewable energy
