The energy storage industry just crossed another important milestone. CATL has launched the world's first 9MWh energy storage system built for mass production. The system ...

At ees Europe 2025, CATL launched TENER Stack, the world's first mass-produced 9MWh ultra-large-scale energy storage solution, setting a new industry benchmark ...

The TENER Stack is billed as the world's first stackable, containerized energy storage solution with a scalable 9 MWh capacity. Compatible with various CATL cell ...

With TENER Stack, CATL reinforces its commitment to helping global partners accelerate the energy transition, delivering more power in ...

Today, the company unveiled a 20-foot-tall energy storage system (ESS) called the TENER Stack, which, according to CATL, offers ...

TENER Stack incorporates CATL's high-energy-density cells with five-year zero degradation technology, achieving a 45% improvement in volume utilisation and a 50% ...

Today, the company unveiled a 20-foot-tall energy storage system (ESS) called the TENER Stack, which, according to CATL, offers breakthroughs in storage capacity, ...

The Chinese battery giant launched the Tener Stack at the battery storage show in Munich, Germany, on May 7, calling it the world's first production-ready 9 MWh ultra-high ...

That's exactly what container energy storage battery power stations are achieving today. These modular
