-----

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.

SOLAR ENERGY provides cutting-edge folding energy storage containers designed for efficient solar energy storage, offering smart solutions for both residential and commercial use.

Highjoule's mobile solar containers provide portable, on-demand renewable energy with foldable photovoltaic systems (20KW-200KW) in compact 8ft-40ft units.

Foldable Solar Panel Containers are an innovative solution that is combined with solar power technology and logistical convenience. The mobile solar containers carry ...

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, easy to unfold thanks to a sophisticated rail ...

With AGI Modular Hospitals, you're not just investing in a physical structure; you're investing in a dynamic healthcare solution that can adapt to evolving needs.

We offer a range of specialized prefabricated building types, each engineered to meet specific deployment and functional requirements within our comprehensive photovoltaic hospital systems.

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal

output of 134 kWp and, thanks to the lightweight and environmentally friendly ...

With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours. Go big with our modular ...

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency ...
