-----

More recently, in April 2025, Togo launched the construction of a 25 MW solar facility in Dapaong (along with battery storage) to serve the northern Savanes region.

If you've been tracking renewable energy trends in West Africa, the Togo pumped storage project announcement is like discovering a hidden treasure map.

Construction of a utility-scale solar-plus-storage project is now underway in northern Togo. The 25 MW Dapong solar project will include ...

It currently produces 50 MW, but this capacity is being expanded to 70 MW. There is also the Dapaong solar power plant, under construction in northern Togo. This plant should ...

A solar PV plant with a battery energy storage system in Togo is set to expand its capacity to provide electricity to thousands more households.

Construction of a utility-scale solar-plus-storage project is now underway in northern Togo. The 25 MW Dapong solar project will include 36,000 solar panels across 52 ...

The new project builds on Togo's recent progress in renewable energy development. The country already operates the 50 MW Blitta Solar Power Plant, which ...

Togo: Amea to add 20MW and battery storage to Blitta solar PV plant. Identify opportunities for investment and sales with detailed data and project information on more than 7,000 power ...

France's cooperation with Togo in the energy sector extends beyond storage. In October, the African

Development Bank and Proparco (part of the AFD Group) announced ...

By adding a 55 MW battery system, Togo can store the excess energy generated by the Blitta plant during the day and dispatch it during evening peak hours or periods of low ...

Togo is preparing to launch a pilot program for green energy storage following an agreement signed by the French Development Agency and the Global Energy Alliance for ...
