---

A consortium of Norway's Scatec and Japan's Aeolus, a unit of Toyota Tsusho, will develop a 100 MW PV plant near Mazouna in Sidi ...

These projects are scheduled to become operational in 2027, generating around 1,000 GWh annually -- some 5% of Tunisia's national ...

These projects are scheduled to become operational in 2027, generating around 1,000 GWh annually -- some 5% of Tunisia's national electricity production. The solar plants ...

Tunisia has taken a major step toward cleaner and more secure power after a large solar plant began its operations, a move praised by the African Development Bank ...

The Tunisian Ministry of Industry, Mines and Energy has granted development licenses for four solar PV projects in Tunisia, with a combined capacity of 500 MW.

For battery technology enthusiasts, Tunisia's rapid solar buildout signals a coming wave of opportunities. Large-scale PV plants require robust energy storage to balance ...

A consortium of Norway's Scatec and Japan's Aeolus, a unit of Toyota Tsusho, will develop a 100 MW PV plant near Mazouna in Sidi Bouzid Governorate.

Developed by AMEA Power in partnership with the Tunisian government and several international financial institutions, the Kairouan plant is the first solar project in Tunisia ...

Tunisia has signed contracts for four photovoltaic projects, totaling 500 MW, as part of the initial phase of its 1.7 GW tender. Set to be operational by 2027, these projects aim to ...

On 16 December 2025, in the central Tunisian governorate of Kairouan, a 120-megawatt solar power plant was officially commissioned, marking the country's largest operational solar ...

A consortium of Norway's Scatec and Japan's Aeolus, a unit of Toyota Tsusho, will develop a 100 MW PV plant near Mazouna in Sidi Bouzid Governorate, all equipped with ...

Tunisia has signed contracts for four photovoltaic projects, totaling 500 MW, as part of the initial phase of its 1.7 GW tender. Set to ...
