Vestas Wind Systems has a market leadership in Wind power - but the recovery since my last article has very little to do with actual results and valuation, but rather with ...

Vestas traces its roots to 1898 when Hans Smith Hansen bought a blacksmith shop in Lem, West Jutland, that operated as a family business. After the second world war Vestas was founded in 1945 by his son Peder Hansen as "Vestjysk St#229;lteknik A/S" (West-Jutlandish steel technology). The company initially manufactured household appliances, moving its focus to agricultural equipme...

Danish wind turbine maker Vestas has secured a 390MW contract for the Shinan-Ui offshore wind project in Jeollanam Province, South Korea.

Vestas recently received a 270 MW order to power an undisclosed wind project in the U.S. The order consists of 60 V163-4.5 ...

Danish wind turbine manufacturer Vestas Wind Systems A/S (CPH:VWS) today announced it has received orders for 950 MW of turbines for undisclosed projects in the US.

Vestas employs more than 5,000 people in the manufacturing, installation, and service of onshore and offshore wind turbines. Our North American ...

Vestas recently received a 270 MW order to power an undisclosed wind project in the U.S. The order consists of 60 V163-4.5 MW turbines, Vestas" newest high-capacity factor ...

Vestas Wind Systems A/S is best understood as a stack of interlocking platforms: onshore and offshore turbine families, grid and power plant controls, and lifecycle services.

Vestas Wind Systems A/S is a Danish manufacturer, seller, installer, and servicer of wind turbines that was founded in 1945.

Vestas is the renewable energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe.
