Who is Vietnam green energy technology?

Established in 2017, Vietnam Green Energy Technology Co., Ltd. is a company that specializes in processing and manufacturing solar panels. The company's factory is over 20,000 m² in Tien Son Industrial Zone, Bac Ninh Province, Vietnam.

Why is Vietnam a good place to invest in solar energy?

The sunny quality of Vietnam's climate is actually a good sign right now because it means that this country can be a place where the solar industry can thrive. And the solar industry will thrive because there is already a growing demand for renewable energy nowadays and solar is arguably the most popular choice for renewable energy.

Is solar energy the right choice for Vietnam?

"Solar energy is the right choice for Vietnam because it's proven technology that can be quickly and readily deployed, even in challenging sites," she adds. Vietnam's transition to renewable energy comes as the country's electricity needs continue to increase due to strong economic growth projected at 5-7% per annum over the coming years.
