---

It integrates a high-voltage LFP battery with a capacity of 372KWh and a power rating of 150KW, making it suitable for both commercial and ...

Relex"s containerized battery energy storage solution is a complete, self-contained battery solution for utility-scale energy storage. It puts batteries, A/C, UPS, inverter and auxiliary ...

The 372KWh outdoor cabinet energy storage system adopts an integrated design concept, integrating batteries, battery management system BMS, energy management system EMS, ...

Designed for industrial and commercial use, the BESS-372K liquid-cooled battery system delivers reliable 372kWh capacity. Featuring virtual synchronous technology and robust safety, it"s ...

Relex"s containerized battery energy storage solution is a complete, self-contained battery solution for utility-scale ...

Equipped with high-quality phosphate iron lithium battery cells and advanced safety features, it ensures safe and reliable operation. The high-efficiency BMS technology eliminates series ...

Featuring an integrated intelligent energy management system, our 372kWh liquid cooling commercial energy storage system dynamically regulates power output to maximize ...

EK conducted a comprehensive and multi-level test on the 372kWh liquid-cooled smart outdoor cabinet, mainly including mechanical safety, ...

Equipped with high-quality phosphate iron lithium battery cells and ...
