Engineered for commercial and industrial resilience, this high-density solution delivers massive capacity (215kWh) and robust power (100kW) in a single, scalable cabinet.

Our outdoor battery cabinets are designed to withstand harsh weather conditions and provide reliable power storage for off-grid and remote locations. With advanced thermal management ...

The Wattainer Air-Cooled Series is a containerized BESS that features air-cooled battery packs. Container sizes range from small cabinets to ...

The Wattainer Air-Cooled Series is a containerized BESS that features air-cooled battery packs. Container sizes range from small cabinets to standard containers of 10 ft, 20 ft, 40 ft, and 40 ft ...

Our 20-foot Air-cooled cabinet C& I solar power storage systems feature a revolutionary Battery Modular design and distributed cooling system. This means better temperature control, ...

Our 20-foot Air-cooled cabinet C& I solar power storage systems feature a revolutionary Battery Modular design and distributed cooling system. This ...

Our solar battery cabinet systems are storing Pylontech lithium-iron phosphate (LiFePO) batteries, in particular the US3000C rack mounted ...

Air-cooled systems use ambient air flow - fans or natural convection - to carry heat away from the cells. They are simple and low-cost, since no coolant, plumbing or pumps are ...

Our system is designed to enhance energy density and thermal performance, accelerate installation times, engineered for optimal serviceability, and ...
