Which power inverter brand is right for You?

Read on to find a power inverter brand that suits your lifestyle and power requirements. The BELTTT 2000W Pure Sine Wave Inverter is ideal for anyone who needs a reliable and efficient power source on the go, such as RV owners, truck drivers, outdoor enthusiasts, and solar power users.

How do I choose a power inverter?

Shopping for a power inverter largely depends on your purposes. Once you narrow the use case, you can determine your wattage and safeguarding needs. The more wattage an inverter has, the more power it can generate. Depending on your use, you may need large loads of power, or your consumption may be minimal.

How much power does a power inverter use?

Power inverters vary widely in wattage, from 300W to 3,000W and up. Some can even generate surge power as high as 6,000W. Most power inverters have two standard AC outlets for various electronic devices. Other models offer additional AC outlets and often USB ports to charge all of your devices--from laptops to fans and flood lights.

Which Power Inverter should I buy for my RV?

TL;DR: The Ampeak works with everything from cellphones and digital cameras to floodlights and microwaves. If you're looking for a portable power inverter to use on your next RV trip, the AMPEAK 2,000-watt power inverter could be the perfect pick.
