-----  
How much solar capacity did the residential segment install in Q2 2025?

In Q2 2025, the residential segment installed 1,064 MW dc of solar capacity, declining 9% year-over-year and 3% quarter-over-quarter. High interest rates, economic and policy uncertainty continue to be significant challenges for the segment.

How much solar power does the US have in 2025?

Solar accounted for 56% of all new electricity-generating capacity added to the US grid in the first half of 2025, with a total of 18 GW installed. Combined, solar and storage accounted for 82% of new capacity in the first half of the year. The US added 4.3 GW of solar module manufacturing capacity in Q2, bringing the total to 55.4 GW.

What are the challenges facing the commercial solar segment?

High interest rates, economic and policy uncertainty continue to be significant challenges for the segment. The commercial solar segment set a second quarter record, growing by 27% compared to Q2 2024, and adding 585 MW dc of new capacity.

Is the solar industry navigating other federal policy actions?

The solar industry is navigating several other federal policy actions. On July 15, the Department of the Interior issued a memo stating that Interior Secretary Doug Burgum will need to personally sign off on numerous types of federal permitting approvals for a solar project to move forward.

The global solar container market is expected to grow from USD 0.29 billion in 2025 to USD 0.83 million by 2030, at a CAGR of 23.8% during the forecast period. Growth is driven by the rising ...

The global solar container market is expected to grow from USD 0.29 billion in 2025 to USD 0.83 million by 2030, at a CAGR of 23.8% during the ...

Get actionable insights on the Solar Container Power Systems Market, projected to rise from USD 1.2 billion in 2024 to USD 3.5 billion by 2033 at a CAGR of 13.5%. The analysis highlights ...

This report aims to provide a comprehensive presentation of the global market for Solar Container Power Systems, focusing on the total sales volume, sales revenue, price, key companies ...

We surveyed the Solar Container Power Systems manufacturers, suppliers, distributors and industry experts on this industry, involving the sales, revenue, demand, price change, product ...

While initial investment costs present a restraint, the long-term cost savings associated with reduced reliance on fossil fuels and grid electricity make off-grid solar ...

The Off Grid Solar Container Power System Market is anticipated to witness a CAGR of approximately 15-20% over the forecast period, driven by several key innovative ...

The Solar Container Power Systems Market was valued at USD 0.5 billion in 2024 and is projected to reach USD 1.5 billion by 2034, registering a CAGR of 11.5%. This growth ...

Solar accounted for 58% of all new electricity-generating capacity added to the US grid through the third quarter of 2025, with more than 30 GW installed. Solar and storage, ...

o The Global Solar Container Power Systems Market is poised for significant growth with an expected CAGR of 13.8% from 2025 to 2035, driven by increasing demand for renewable ...

The market, estimated at \$2.5 billion in 2025, is projected to expand at a Compound Annual Growth Rate (CAGR) of 15% from 2025 to 2033, reaching approximately \$8 billion by ...
