What is the best portable solar charger for outdoor adventures?

The best portable solar chargers for outdoor adventures feature the BigBlue 28W USB Solar Charger as our overall winner, delivering reliable power for camping, backpacking, and outdoor activities while weighing just over a pound. I'm a science writer who has been covering solar energy and writing about renewable energy for the past ten years.

What is the best solar charger?

See our section below on batteries for more details. The BigBlue offered the highest power output among three similar-looking solar panels, and its cost is essentially the same as the Nekteck, so the BigBlue edged out the Nekteck as the best solar charger. It's easy to use, well-priced, and offers enough portable power to charge a backup battery.

Which solar charger is best for base camping?

The Goal Zero Nomad 50 is a larger solar charger that is our winner for best for base camping. At 50 watts, it's the biggest and heaviest solar charger we tried. Like the Nomad 20, it can be linked to other solar panels and the only one that can be attached in a series to provide even greater charging power to a battery power bank.

Which solar charger power bank is right for You?

Adventure enthusiasts who need reliable power during extended outdoor excursions will find the BLAVOR Solar Charger Power Bank exceptionally well-suited for their requirements. This 10,000mAh unit delivers 20W fast charging through USB-C output, charging an iPhone 15 to 65% in thirty minutes.
